

Dear Pastors & Leading Elders,

As you are aware, the centenary celebrations are fast approaching. One of the ventures that we are doing is a 40 min documentary on the history of The Apostolic Church. This is to include interviews with key people and nostalgic photographs as well as early video footage.

We are asking you for your help!

Is there anyone in your assemblies who would:

- a) Have a history of their own experiences growing up in the early years
- b) Have any photographs or video footage of early years
- c) Be willing to take part in the DVD sharing their stories.

We would like to see some young people as well as the older generation as we not only want to convey the history, but also bring an element of what is to come for our fellowship.

We would be grateful if you could ask people in your assemblies to contact us with any of the points above and to email:

centenary@ablazeuk2016.org

This DVD will be made available for purchase from January 2016.

Let's try and make this a special event to remember. Video is one of those commodities that will remain with us and we can look back on in years to come and to say that we were part of that.

May God bless you

Iain Field
